CAREER OBJECTIVE

Motivated and tech-driven Information Science & Engineering student at CMRIT with a strong interest in Linux systems, networking, infrastructure engineering, and automation. Skilled in Python, C++, Git, Docker, SQL, and Linux fundamentals, with hands-on experience building backend applications and solving real-world technical problems. Passionate about troubleshooting, system reliability, and continuous learning, and seeking an opportunity to contribute to high-performance infrastructure teams while building a strong career in systems and infrastructure engineering.

EDUCATION QUALIFICATION

- **Bachelor of Engineering - Information Science & Engineering**
CMR Institute of Technology, Bengaluru
8.68 CGPA, 2027 (Pursuing)
- **Pre-University Board – Science**
Karnataka Science College, Dharwad
91.33%, 2023
- **10th Grade**
MDRS Machina, DK
95.04%, 2021

TECHNICAL SKILLS

- **Programming Languages:** Python, C++, C
- **Database:** MySQL
- **Operating System:** Windows, Linux
- **Tools & Technologies:** Git, Docker
- **Data Visualization & Reporting:** Tableau, Power BI, Microsoft Excel

PROJECTS

- **CognitoShield AI: Privacy-First Cognitive Load & Digital Burnout Detection Platform**
 - Built a web application to detect stress, fatigue, cognitive load, and burnout risk using user behavior data.
 - Collected real-time data such as typing speed, mouse movement, scrolling, idle time, and session activity to analyze user stress levels.
 - Automatically generated cognitive health scores, maintained user history, and displayed reports through an interactive dashboard..
 - Implemented secure user authentication and stored user data safely while protecting privacy.
 - **Tech Stack:** Python, FastAPI, SQLite, React.js, Scikit-Learn, XGBoost, Pandas, REST APIs
- **Smart Agriculture Portal – AI/ML-Based Crop Prediction & E-Commerce Platform**
 - Developed a full-stack web application leveraging machine learning models (Decision Tree, Random Forest, KNN) to predict crop suitability, yield, rainfall, and fertilizer recommendations using soil and weather data.
 - Built an end-to-end ML pipeline (data preprocessing, feature engineering, model training & evaluation) to deliver accurate, real-time decision support for farmers.
 - Designed a multi-module system (Farmer, Customer, Admin) with features like crop trading, stock management, weather forecasting, and chatbot integration, enabling direct farmer-to-customer transactions.
 - **Tech Stack:** HTML, CSS, JavaScript, MySQL, Python, Pandas, NumPy
- **Gaslytics: A Smart LPG Logistics System**
 - The system is designed to manage the daily operations of an LPG gas agency, including customer management, gas booking, billing, inventory tracking, and delivery management.
 - It keeps records of LPG cylinder stock, customer details, bookings, deliveries, and payments, providing accurate and real-time inventory updates.
 - The project reduces manual work by generating bills automatically, updating stock after every delivery, tracking orders, and creating sales reports.

- It provides a simple and easy-to-use interface, making it suitable for small and medium LPG distributors.
- **Tech Stack: HTML, CSS, JavaScript, Node.js, Express.js, SQLite**

CO-CURRICULAR ACTIVITIES & EXTRA CURRICULAR ACTIVITIES

- **Online Courses & Certifications**
 - Certified in “Python for Data Science” from IBM, 2025
 - Certified in “Python Foundation Certification” from Infosys Springboard, 2025
 - Certified in “SQL Server Important Concepts” from Infosys Springboard, 2025
- **Hackathons**
 - Participated in FSD Hackathon organized by CMR Institute of Technology, 2025
 - Participated in Codestorm 2026 – Gen AI Hackathon organized by Unlox at CMR Institute of Technology, 2026
- **Seminar**
 - Attended a seminar on Modern Data Engineering using Spark and Python Libraries organized by the Department of AI & ML at CMRIT
 - Attended a Seminar on AI and Industry 4.0 organized by IIC–CMRIT
- **Non-Technical Club Activities**
 - Volunteered in youth empowerment and community development initiatives through the C2C Fellowship – Yuvaka Sangha ,2025

PERSONAL DETAILS

Date of Birth	: 16 th April 2005
Gender	: Male
Nationality	: Indian
Permanent Address	: Vadegola Gajendragad, Gadag-582114
Linguistic Competency	: English, Kannada
Hobbies	: Watching Movies, Playing cricket
